

Tuscany Landscape Committee November 2020 Report

The Landscape Committee concluded their final activities in November by conducting three (3) work parties to remove dried weeds and overgrown vegetation along our HOA fences and walking paths bordering the canals.

The first group met November 5th to remove dried weeds along the HOA fence North of Palermo Drive and the Eight Mile Lateral Canal. That work party included Dennis Jacky, Trevor Knesal, Dennis Ohlhauser, and Connie Meyers.

The second group met November 6th to trim back over-grown rose bushes and a willow branches along the asphalt path just South of the Ridenbaugh canal across from Tybalt Lake. Dennis Jacky and David Pifari conducted the work.

The third group met November 7th and removed dried weeds along the Tybalt Lake fence leading from Tybalt Drive West, around the corner next to Eight Mile Lateral canal. That work part consisted of Bret Amick, Roger Foster, David Pifari, and Dennis Jacky.

All members of the work parties signed the Tuscany Homeowners Association liability release form each day and these forms were sent to Sentry Management along with the receipts for taking 4 trailer loads of debris to a recycling center.

The Landscape Committee will resume their activities in the Spring of 2021.
